

SINCE 1960

HINDUSTHAN CANVAS COMPANY

Authorised Dealers of -

BRAND Owned by us:

Introduction

The journey was inaugurated sourcing an unyielding capital through enormous struggling and stressed atmosphere to earn immense standing in the Tarpaulin Industry. Expansion was gradually reflected with a strong customer base as well as mounting turnover trend without retreating effect. Throughout 60 years, the achievement of customer satisfaction was greatly stimulated due to persisting quality maintenance including its assurance.

The divine Ganga ripples just 100 meter away and we start our daily operations amid of honesty as well as purity plunging the bad aspect with an anticipation of new prospect.

Owing to our broad company relations, we are able to fulfill the bulk & urgent requirements of our prestigious clients in an efficient manner. This infrastructure is segregated into various departments like manufacturing, quality testing, sales & marketing, etc. Furthermore, premium quality raw material is sourced from the reputed vendors of the market in order to enable smooth functioning of the offered products. We have selected highly experienced team of professionals, who have rich industry experience in their respective domain. Our experienced professionals perform every single task with thorough dedication in order attain maximum satisfaction of clients. With the support of our team members, we are able to offer the products in a timely manner and at market leading prices.

Quality assurance is considered as the major objectives of our firm thus we never compromise on the quality of our offered product range. We have hired experienced professionals in maintaining a consistent level of quality in our entire production process. These products are quality tested on various parameters to ensure their flawlessness. We have introduced a strict quality policy that has become an essential factor of our organization, which helps us in attaining the highest level of client satisfaction. Being a client oriented company; we are engaged in offering an extensive array of products.

With the futuristic approach of our mentors, “**Mr. Siddhartha Dhang and Mr. Sambit Dhang**”, we are driving our firm towards high strides of triumph. Their rich industry experience and knowledge has made us the most renowned firm in the market.

Wholesalers of:

HDPE Tarpaulin, LDPE (black) Tarpaulin, Plastic Tarpaulin, Cotton Canvas Tarpaulin, PVC Tarpaulin, Shed Nets, Car Covers, Construction Net, Jute/Hessian Cloth.

Products

Tarpaulin

HDPE Tarpaulin

Backed by the support of our experienced professional in this domain, we have been able to bring **HDPE Tarpaulin**. Our provided tarpaulin is manufactured and designed by using optimum quality high-density polyethylene and leading technology used to protect the items from getting damaged from water. The offered tarpaulin is obtainable in double triple layer for water proofing from both sides. Additionally, our quality experts test this tarpaulin against varied norms in order to deliver defect free product at clients' end.

Features:

- Shiny surface
- Resistant to tear
- Dimensional accuracy

Other Details:

- Covering machinery, raw material, packing material, finished products
- paper cartons, protection for any transit materials, Shed covers offering protection against
- Sun / Rain / Dew / Dust, Truck Tarpaulin, Privacy Walls
- Camping Tents, Shelter for poor people / Temporary Shelter
- Scaffolding at construction sites etc

Specifications:

- Material: PE
- Type: Tarpaulin
- Style: PE Laminated
- Width: 2m,4m

LDPE Tarpaulin

Enriched by our vast industrial experience in this business, we are involved in offering an enormous quality range of **LDPE Tarpaulin**. Backed by the support of our experienced professional in this domain, we have been able to bring **LDPE Black Tarpaulin**. Our provided tarpaulin is manufactured and designed by using optimum

quality high-density polyethylene and leading technology used to protect the items from getting damaged from water. The offered tarpaulin is obtainable in double triple layer for water proofing from both sides. Additionally, our quality experts test this tarpaulin against varied norms in order to deliver defect free product at clients' end.

Product Details :

- Color : Black
- Usage : Covering Purpose
- Feature : Water Resistance

Plastic Tarpaulin

Backed by our efficient workforce, we are capable of supplying, trading, wholesaling and distributing Plastic Tarpaulin.

Features:

- Dust & dirt proof
- Can withstand adverse environment conditions
- High tensile strength

Other Details:

- Covering machinery, raw materials, packing materials, finished products, papers cartons
- Protection for any transit material
- Shed covers offering protection against Sun/ Rain/ Dew/ Dust- Truck Tarpaulin
- Privacy walls, Camping Tents
- Shelter for poor people / Temporary Shelter of Hawkers, Fruits / Vegetable vendors
- Scaffolding at construction sites etc
- Covering of raw bricks, Cement etc
- Covering for Pandals, Monsoon sheds, Mandaps etc
- Banner guard for Police, Fire Units, Construction Sites, Chemical Plants, Industrial Locations, Manufacturing Facilities, Commercial & Public Building wherever access should be restricted

Specifications:

- Type: Tarpaulin
- Style: Fabric
- Pattern: Plain
- Width: 2m-50m

PVC Tarpaulin

Hindusthan Canvas is leading and trusted PVC Tarpaulin Dealers & Manufacturers in India. PVC tarpaulins are made by using a nylon fabric coated by a Polyethylene resin which makes it water-retardant. Hindusthan Canvas offers high quality PVC Tarpaulins using finest quality raw materials, sourced from the most trusted vendors. With coating in single or both sides, we offer our client to choose from different types of finishes. We can also customize the color, shape and size of the products as per our clients' requirements.

Applications of PVC Tarpaulin :

- Used as temporary storage.
- Used as adumbrate materials for building facility and houses.
- Fumigation of food grains.
- Suitable for outdoor tents as well as for covers used on trucks.
- Used as exhibition hangers
- Used by Tent-House/Decorators for Temporary Structure.
- Used for cricket pitch cover and ground cover.

USP of PVC Tarpaulin :

- Astounding tensile and tear strength.
- Water-resistant.
- Lightweight and flexible.
- UV stabilized.
- Repairable
- Maintenance Free

PVC tarpaulin material has been widely used as awnings, truck cover, tents, banners, inflatable products, adumbral materials for building facility and house.

Cotton Canvas Tarpaulin

Our clients can avail from us a wide range of Cotton Canvas Tarpaulin. These are manufactured by impregnating waterproofing compounds into cotton canvas. The water bearing capacity depends on the basic quality and strength of the cotton canvas used. Standard qualities of the cotton cloth vary from 300 gsm to 610 gsm. Recommended grades are 450 gsm and higher for guaranteed waterproof use. Tarpaulins can be supplied in and desired size and also the eyeholes with metal rings are provided at the edges for tying.

Features:

- Competitive prices
- Long lasting
- High quality

Applications areas :

- Grain merchants
- Mines
- Railways

Specifications:

- Material: Cotton
- Size: Customized
- Colour: Yellow. Blue, Red

Tarpaulin Usage

FUMIGATION COVER

Hindusthan Canvas supplies and exports a wide variety of Fumigation Covers that are highly demanded because of weather-resistant and durable attributes. Premium grade raw material sourced from our valued vendors make our fumigation tarps stand out in terms of quality. These fumigation sheets are essentially used for protecting food grains, cereals, rice fumigation and other raw materials from erratic weather conditions in open space. Fumigation covers are used in Rice/Pulse mills, Tobacco drying, cashew processing units, oil mills, flour mills, cotton mills, sugar factories. In some parts of India, it is used as hay covers also.

Features:

- Light Weight yet tough
- Inert to most chemicals, alkalis, acids and acid fumes
- UV Stabilized
- Heat Sealed and 100% leak-proof
- 100% Water proof, Rot proof and Weather proof
- Accidental tear does not expand hence easily repairable
- Available in Attractive colors and various thicknesses
- Our Fumigation Sheets are flexible and convenient for covering irregular shapes and sizes
- Excellent tear / tensile / puncture and impact resistance
- Ultrasonically welded super strong plastic eyelets / aluminum eyelets

Tarpaulin for Agriculture

Agricultural business is usually characterized by seasonal production cycle. The production relies on a specific season and consumption is a 365 days phenomenon. Thus, a given season witnesses bumper

production which means there is a huge storage need. Creating a permanent storage is always a costly affair and herein, tarpaulin sheds provide cursory and economical solution.

At Hindusthan Canvas, we offer a wide range of high-grade tarpaulins for agricultural usage. Made of top-notch material, in compliance with the industry standards, our products assure optimum quality, reliability and durability. Our range of tarpaulins also include pond lining sheets that are expansively used by the agriculturists to prevent water from slipping in the land.

Usage :

- Drying of spices, Areca nuts, coconut, rubber, chillies, turmeric, grapes(raisins) and other agricultural produce.
- Solar drying chambers for drying of agriculture/horticulture produce.
- Covering of tendu leaves, tamarind and other forest and hill produce.
- Fumigation of tobacco leaves, food grains, pulses, grapes and other agricultural produce.
- Floor underlays (Dunnage sheets)/ thrashing floors.
- Small ponds for fresh drinking water, farm ponds for cultivation, fish farming, algae cultivation, rain water harvesting, community water storage tanks, low cost rain water harvesting ponds etc.
- Green house/low tunnels/low cost solar green house/nursery sheds etc.
- Poultry curtains and roofs
- Portable vermibed
- Azolla farming

Tarpaulin for Transport

We are one of the prominent manufacturers of **HDPE Tarpaulin for Transportation**. Our HDPE tarpaulin is used to prevent the material from getting damaged from water and humidity. Our offered range is manufactured using high-grade raw material and advanced technology in compliance with the international quality standards. These tarpaulins are highly appreciated for their superior quality and durability.

Features:

- Available in different colors, sizes, and shapes
- Water and fire resistant
- Rot-proof
- Lightweight

Tarpaulin for Fire Retardant

Hindusthan Canvas is trusted Fire Retardant Tarpaulin Manufacturers & Dealers in India, owing to its finish, do not support combustion and are used to conceal or protect several supplies or equipment, hence preventing any chance of condensation. At Hindusthan Canvas, we offer fire retardant tarpaulins that are known for high tensile strength! The manufacturing process adheres to stringent guidelines which testify its superior quality. These tarpaulins are treated to restrict the spread of fire and serve to protect against static electricity. The raw materials that are used to fabricate these fire-retardant tarps are of optimum quality which makes products tear and rot proof as well as durable.

Application Areas :

- Used as covers in construction industry
- Used as temporary shelters or shade structure or cover for an area or object to prevent from rain and exposure to sun

Used for containment, particularly with tent structures

- Used in applications that require protection against static electricity
- Used for outdoor winter construction wherein it is used to contain heat
- Used for interior divider curtains, welding curtains, paint booth curtains, gym floor coverings, warehouse partition curtains
- Used by Indian army regiment for covering arms and ammunitions.

Specifications:

- Sizes : Any size
- Color: Off-white or any other available colour
- Processing : Coating done by chemical for fire retardant and water proof
- Textured Used: COATED FABRIC IN 630 GSM
- Remarks: Tarpaulins shall be made of coated fabric 100 % Guaranteed water proof and fire retardant. Best used for industrial purpose for making curtain round the furnace and boiler, petroleum industries, Welding at industrial site.

Tarpaulin for Tent House

We are engaged in offering Tarpaulin Tent Covers that are UV produced. The covers are available in different sizes and can be customized as per the client's specifications. The range is laminated on two sides and comes in single and multiple color

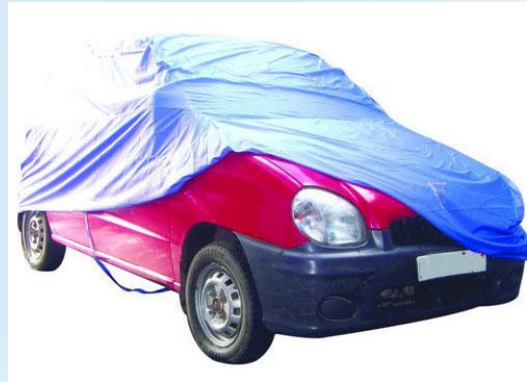

combinations. The covers are used to make tent, truck and construction covers.

Features:

- High tensile & adherence strength
- UV protective
- Temperature & weather

Tarpaulin for Car Cover

We are a prominent organization, which is involved in manufacturing and supplying high quality approved **Car Cover**. We are one of the leading traders of tarpaulin car covers, fabricated out of quality fabric and are used for cars. These are HDPE & PP coated and thus keeps the vehicles safe against bad weather conditions, especially rains. Stitched with strong threads, our products have heavy gauge eyelets on all the four sides.

Features:

- High tensile & adherence strength
- UV protective
- Temperature & weather

Tarpaulin for Poultry Farms

Hindusthan Canvas offers wide range of Poultry Curtains, Chicken House Curtains that are manufactured using premium grade quality material. Our Poultry house curtains are available in varying colors, thickness and dimensions. As poultry curtain manufacturers, we care and provide exceptional product features. In the agricultural, poultry farming industry, Hindusthan Canvas provides the best poultry curtains made of multi-layered cross laminated silpaulin film.

Features:

- Improved strength and lasting usage
- Waterproof
- Inert to any chemicals and acids
- Competitive prices and modified sizes
- Available in different colors and varying sizes as per requirements

Silpaulin Tarpaulin

We brand ourselves as sole authorized Silpaulin Tarpaulin Dealers in India as well as distributor of Silpaulin Brand Multilayered Cross Laminated, U.V. Stabilised Plastic Film in Eastern India as well as Nepal and Bhutan.

Availability of XF Film

- **Thickness:** Film made in 35, 45, 70, 90, 120, 150, 200, 250, 300 GSM.
- **Sizes:** Film made in 4 feet to 9 feet width can be fabricated to a custom made size as per customer's requirement (Eg. Cover for football field in 1 piece).
- **Colours:** Any colour, Standard color Blue / Yellow 2 Side colour film made in 150 onwards.
- Utilizing patented state-of-the-art technology in collaboration with world leaders Rasmussen Polymer Development AG of Switzerland, multi-layered cross laminated, UV stabilized silpaulin stand out in terms of toughness, impact and tensile strength as per BIS 14611:1998

Applications of Silpaulin

Silpaulin in Agriculture:

- Drying of spices, Areca nuts, coconut, rubber, chillies, turmeric, grapes (raisins) and other agricultural produce.
- Covering of tendu leaves, tamarind and other forest and hill produce.
- Fumigation of tobacco leaves, food grains, pulses, grapes and other agricultural produce.
- Floor underlays (Dunnage sheets).
- Small ponds for fresh drinking water, farm ponds for cultivation, azolla farming, fish farming, algae cultivation, rain water harvesting, community distribution with the help of silpaulin water storage tanks.

Silpaulin in Civil Engineering:

- As column footing underlay, raft underlay, terrace garden underlay and parking floor underlay.
- Side curtain for retaining walls, silpaulin water tank.
- Basement capping and swimming pool capping.
- Lining for ETP-s/waste pits/sludge ponds.
- Lining for large water bodies/raw material reservoirs/ponds. Our Silpaulin product is also used for plastic sheet for water storage.

General Application of Silpaulin:

- Covering machinery, raw materials, packing materials, finished products, paper cartons.

- Protection for transit materials.
- Shed covers offering protection against inclement weather conditions.
- Covering of iron ore, coal etc.
- Temporary shelter for hawkers and vegetable vendors.
- Scaffolding at construction sites and covering bricks, cement etc.
- UV Films for Poly house/Gree house.
- Covering for pandals, monsoon sheds, mandaps etc.
- Banner guard for police, fire units, construction sites, chemical plants, industrial locations, manufacturing.
- Facilities, commercial and public building wherever access should be restricted.

USP of Silpaulin Tarpaulin:

- Crisscross lamination which contributes to strength and durability.
- Light weight, flexible and tough.
- 100% waterproof.
- UV stabilized.
- Cost-efficient.
- Ultrasonically welded eyelets.
- Strong Joints.

Shed Nets

Shed Nets

Different folks need different strokes, same is true for every crop when it comes to Sunlight. Each one has individual requirement of Sunlight. And when this all-important factor is conditioned to individual suitability, crops show encouraging growth. It needs a selection of appropriate shade factor which comes by virtue of material used.

Shade nets are prominently used in:

- Nursery, Terrace Gardens, vegetable farms
- Drying of various Agro products

Product Details:

- Material : Nylon, HDPE Plastic
- Width : 1-6 m
- Weight : 30-200 GSM
- Packaging Type : Roll
- Shade Factor : 3.00/ 4.00/ 5.00/ 6.005 %

Features:

- Easy to install
- Heat resistant
- Light weight

Construction Nets

Construction Safety Net is specially made for fixing at construction sites or high storey buildings to prevent fall of construction workers and expensive equipment. This net is made of PP rope (As per IS-5175) having good breaking strength and border PP rope. The mesh size is also appropriate. To prevent fall of tools & Debris, HDPE net fixed on top.

Features :

- This net is strong & durable
- Tear resistance
- It is very easy to install.
- Reliable

Specification:

- Material: 100% virgin new HDPE
- Weight: 50-350 g/sqm
- Density: 2000 meshes per sqm

Product Details :

- Border Rope Diameter : 12 mm
- Breaking Strength of Border Rope : 2210 kg
- Diameter of Net Rope : 6 mm & 8 mm
- Material : PP
- Mesh Shape : Square
- Mesh Size : 3 - 4 inch

Jute & Hessian Cloth

We supply an exclusive range **Jute Hessian Cloth 15kg Bale**, which meet the demands of high performance areas. Known for their high durability, strength and print ability, these cloths are used for making bags and cover material. Available in different textures and dimensions, these Jute Hessian Cloths 15kg Bale are made as per the diverse

requirements of our customers.

Features:

- Sewing : Herackle and overhead (safety sewing optional)
- Color: Natural, semi-brite, full-brite, bleached, dyed
- Branding: Up to 3 color

UV Film

UV Film for Green House & Poly House

Hindusthan Canvas is trusted and leading Green House Film dealers in India, assuring best quality of products. In the recent past, use of UV films for greenhouse has garnered popularity. Owing to the fact that these plastic films are lightweight, translucent, flexible, tough, hydrophobic in nature and durable, these are the most sought-after material for covering greenhouses.

For cladding greenhouse structures, varying types of plastic materials are used which include Poly Carbonate (PC), Poly Vinyl Chloride (PVC) and Low Density Polyethylene (LDPE). LDPE is the most popular compared to other plastic materials owing to its features, cost-efficiency and ease in availability.

Durability

Our UV Film for Green House can be exposed to outdoor environment for prolonged period of time. The UV stabilizers are used along with other antioxidants to prevent thermal degradation.

Optimal Light Transmission

Our UV stabilized films provide proper light transmission by filtering out the harmful ultra violet radiation, which is harmful for plants growth. This ensures optimized growth of the crops inside the greenhouse.

Diffusion

Our UV Films scatter the direct sunlight thus do away “shadow” effect and help avoid “scorching” or “sun burns” in plants/crops.

Multi-Layer Films

The multi-layer film technology provides scope to incorporate different kinds of functional additives for various layers. We can tailor-make the films that will cater to the inner as well as outer performance requirements of the greenhouse. These multi-layer films boast moisture-resistant properties.

USP of our products

- High strength
- Excellent mechanical properties
- Excellent optical properties
- Cost-effective
- Can be customized as per clients' requirements

Properties:

- High strength
- High puncture strength
- Excellent mechanical properties
- Excellent optical properties
- Can be customised as required.

Tarpaulin Manufacturer

We are the manufacturers of HINDCO Brand Tarpaulin. **Tarpaulin is a multipurpose, long life, 100% waterproof, UV stable, high strength coated woven polyolefin fabric that has worldwide applications.**

This is a new generation HDPE Tarpaulin made out of virgin raw material. It is one of the finest qualities of waterproof fabric available in India. The parent company is Canadian, all its machinery is of international standards. It is lightweight, flexible and easy to handle. All sizes are bordered with rope and have Aluminium rivets at all sides. It has the highest linear tear capacity. There are various sizes available to suit your requirements. It has excellent impact and puncture resistance. It is unaffected by most chemicals and its synthetic construction is inert to bacteria and mould growth. Hence, it is an ideal product for all-weather outdoor applications.

Features:

- Tarpaulin is manufactured according to IS: 7903: 2005 Standard
- Tarpaulin's multi-layered polymer coatings are waterproof
- Exceptionally resilient, the highest strength-to-weight ratio of any plastic film
- Excellent impact and puncture resistance
- High tensile tear strength ratings
- Tarpaulin UV is stable so it can withstand long term exposure to the sun
- Ideal for all-weather outdoor applications

- Tarpaulin's synthetic construction is inert to bacteria and mold growth
- Excellent gas barrier properties
- Tarpaulin is unaffected by most chemicals
- Lightweight, flexible and easy to handle

Specifications:

- Available in varied GSM : 95, 125, 150, 200,240,300 GSM
- Available Color : Blue/Blue, Yellow/Yellow, Olive Green/Blue
